

Step 1: Use a mallet/hammer to put the stake in the ground as deep as possible, or use other secure base stand.

Step 2: Assemble the flag pole starting from the bottom segment, pull away as segments automatically come together, ensure each connection is secure.

Step 3: Insert the assembled pole into the flag sleeve (sleeve size 1.6inch+), connect to the ground stake/base.

Step 4: Adjust the hook to desired height then place the loop over the hook.

Feather Flag Safety Instructions and Warnings

- **Warning.** Only use feather flag in area clear of power lines, structures, trees, cars, buildings, people, hazardous weather etc.
- Ensure feather flag is only used in clear open area to avoid damaging or creating hazardous situations.
